

Help shape the
'Future of Cash'

Cash remains the number
one choice of payment of
consumers worldwide

An event dedicated to optimising
all aspects of cash management,
through new strategies and best
practice, to create the optimal
cash cycle of the future.

The Future of Cash

4-5 OCTOBER 2017 Vienna, Austria Vienna Marriott Hotel

Welcome

Now in its 14th year, The Future of Cash conference brings together all stakeholders involved in the cash cycle. Its highly specific focus on achieving operational efficiencies attracts an international audience of central banks, financial institutions and retailers.

This event provides a rare opportunity to put your company in front of leading decision-makers at one of the most respected conferences in the industry.

You Want Cash

Consumers want to use cash – and will continue to do so, not only to make payments, but also for their savings, to better manage their budgets, to protect their privacy and also as a back-up, when other systems fail.

So the real issue is not whether cash has a future, but what retailers and banks should be doing to continue to offer choices to consumers in a more efficient way.'

Guillaume Lepecq,
CEO, AGIS Consulting
